

LANDSCAPING FOR RESILIENCE:

ARE YOU READY FOR THE NEXT BIG STORM?

A workshop series for hardy Cape Codders

All ages welcome!

Barnstable Senior Center
825 Falmouth Rd., Hyannis, MA 02601

Wednesday, March 20 2-3 pm & Thursday, April 4, 11-noon

Take home practical tips to keep you and your family safe while also contributing to Cape Cod's ability as a region to be resilient*.

***re•sil•ient** \ri-zil-yent: *adjective*, able to become strong, healthy, or successful again after something bad happens

All About the Trees

Wednesday, March 20, 2-3 pm

Featured Speaker: Russell Norton, Agriculture and Horticulture Extension Educator, Cape Cod Cooperative Extension

Russell will focus on trees including assessing your yard for hazards and tree health assessments; how to handle tree damage and find professionals to do tree and other work beyond the skills of the homeowner. He will explain why trees are essential to the wellbeing of the Cape and although a downed tree can cause a power outage, trees can also be helpful during power outages and give all sorts of benefits that make us more resilient in the long run.

Wrangling Rainwater on the Homestead and other Landscape Choices for a Changing Climate

Thursday, April 4, 11am-noon

Featured Speaker: Kristin Andres, Director of Education and Outreach, Association to Preserve Cape Cod

When it rains, it pours! This seems to be a common occurrence these days. Rainwater is a valuable resource and there are practical ways of managing stormwater on your own piece of Cape Cod to avoid property damage and protect water quality. There are landscape design choices that welcome the rain and offer attractive alternatives to the traditional landscape. And, there are ways to conserve water for those dry spells in between.
